

Admissions and Financial Aid Committee  
Minutes 4/15/08

Dr. Annagene Yucas, Director of the Study Abroad Office, discussed international travel opportunities offered to undergraduate students by her office. She noted that 1300 University of Pittsburgh students took part in one or more of the programs in 2007. She described opportunities within the various programs:

Panther Programs Abroad are cultural and/or language focused and range from a semester abroad to a class related field trip. Opportunities exist throughout Europe, Asia, Latin America and the Caribbean, South Africa and other locations.

Pitt Exchange program features reciprocal student exchange programs with other universities, some of which are specific to students in the schools of business and engineering.

The Pitt Recognized program consists of agreements with other recognized universities to transfer academic credits for work at other institutions and is currently being restructured.

Pitt MAP features travel to 3 international stops, with the opportunity to add other locations on the return trip at no added cost, during the Spring semester; this program replaces Semester at Sea.

This was the final meeting of the 2007-2008 academic year.
