According to the Guidelines, in addition to faculty members selected by the nominating committee for the slate of candidates, faculty members may also become candidates for election by submission of a nominating petition signed by at least 5% of the faculty eligible to vote in the election. The petition should be submitted in paper only form within ten days after the nominating slate has been announced. **You must submit your petition and a brief bio (approx. 150 words) by 4 p.m. on September 2 to the Senate Office, 362 CL.** Please see the table below.

<u>Area</u>	<u># of eligible voters</u>	<u># needed on petition</u>

The election will be held electronically beginning on September 6 and will end on September 15.

From the final slate of candidates, the five faculty are to be distributed across the University with one faculty member coming from each of the following areas: Arts & Sciences, Professional Schools in the Provost's area, School of Medicine, the other Health Science Schools and from the regional campuses.

The faculty members elected to the Search Committee will be joined by members representing the staff and the students who are selected through separate processes.

The final slate of candidates and directions for voting will be sent to eligible voters on September 6.
