	<p>A compelling use case was noted “..former fraud victim. TIAA CREF place extra fraud protection for online login. Single Sign on overrides those extra levels of security. No answers from TIAA-CREF or CSSD’s interoperability group”.</p> <p>Possible “Opt out” technology for SSO is costly and gives opportunity to expose data. (Automated solutions for opt-out are not provided by TIAA CREF or UPMC at this time.)</p> <p>Possible multifactor sign on and enhanced security with new University portal platform</p>	
New Business	Minutes to be approved online for quick turn around and posing in FS website. Piloting changes in SCUC minutes including draft review and online voting approval	If found successful, possible resolution for other FS committees to consider adoption.
Call for Additional New Business	None
